Missouri State Employees' Retirement System
Jefferson City, Missouri

Report on Audit of Schedule of Allocations and Schedule of Pension Amounts by Employer

Opinions

We have audited the schedules of employer allocations of the Missouri State Employees' Plan and Missouri Judicial Plan, pension trust funds administered by the Missouri State Employees' Retirement System, collectively the System as of and for the year ended June 30, 2024, and related notes. We have also audited the totals for the columns titled net pension liability, total deferred outflows of resources, total deferred inflow of resources, discount rate sensitivity and plan pension expense (specified column totals) included in the accompanying schedule of pension amounts by employer (collectively the Schedules) of the System as of and for the year ended June 30, 2024, and related notes.

In our opinion, the accompanying Schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflow of resources, discount rate sensitivity, and plan pension expense for all participating entities for the System as of and for the year ended June 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedules section of our report. We are required to be independent of the System and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Other Matters

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the System as of and for the year ended June 30, 2024, and our report thereon, dated October 21, 2024, expressed an unmodified opinion on those financial statements.

What inspires you, inspires us. | eidebailly.com

Independent Auditor's Report

Responsibilities of Management for the Schedules

Management is responsible for the preparation and fair presentation of the Schedules in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedules that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the Schedules as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the Schedules.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the Schedules, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the Schedules.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the Schedules.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the Schedules of the System. The Schedule of Net Deferred Outflows and Inflows of Resources by Employer to be Recognized in Pension Expense – MSEP and Judicial Plan and the Schedule of Employer Covered Payroll – MSEP and Judicial Plan are presented for purposes of additional analysis and are not a required part of the financial statements.

The Schedule of Net Deferred Outflows and Inflows of Resources by Employer to be Recognized as Pension Expense – MSEP and Judicial Plan are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the Schedules. Such information has been subjected to the auditing procedures applied in the audit of the Schedules and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the Schedules, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Net Deferred Outflows and Inflows of Resources by Employer to be Recognized in Pension Expense – MSEP and Judicial Plan are fairly stated, in all material respects, in relation to the Schedules as a whole.

Independent Auditor's Report

The Schedules of Employer Covered Payroll – MSEP and Judicial Plan have not been subjected to the auditing procedures applied in the audit of the Schedules and, accordingly, we do not express an opinion or provide any assurance on them.

Restriction on Use

Our report is intended solely for the information and use of the System's management, the Board of Trustee, System employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Note 1 - Plan Descriptions

The Missouri State Employees' Retirement System (MOSERS or the System) consists of two plans: the Missouri State Employees' Plan (MSEP) and the Judicial Plan.

The MSEP is a cost-sharing multiple-employer, defined benefit public employee retirement plan with two benefit structures known as the MSEP (closed plan) and MSEP 2000 (which includes the MSEP 2011 tier), which are administered by MOSERS in accordance with Sections 104.010 and 104.312 to 104.1215 of the Revised Statutes of Missouri (RSMo). As established under Section 104.320, RSMo, MOSERS is a body corporate and an instrumentality of the state. The System is vested with the powers and duties specified in Sections 104.010 and 104.312 to 104.1215, RSMo, and such other powers as may be necessary or proper to enable it, its officers, employees, and agents to carry out fully and effectively all the purposes of Sections 104.010 and 104.312 to 104.1215, RSMo.

Responsibility for the operation and administration of the System is vested in the 11-member MOSERS Board of Trustees (the Board) as defined by state law. Due to the nature of MOSERS' reliance on funding from the state of Missouri and other state government agencies and the overall control of the plan document by the legislative and executive branches of state government, the MSEP is considered a pension trust fund of the state of Missouri, and is included in the state's financial reports as a pension trust fund.

Generally, all full-time state employees hired before July 2000, who were not covered under another state sponsored retirement plan, are eligible for membership in the MSEP (closed plan). Full-time state employees hired after July 2000, and before January 2011, are eligible for membership in the MSEP 2000. Employees hired for the first time on or after January 2011, are eligible for membership in the MSEP 2011 tier of the MSEP 2000. MOSERS participates as an employer in the MSEP and MSEP 2000. The MSEP provides retirement, survivor, and disability benefits.

The Judicial Plan is a single-employer, public employee retirement plan administered in accordance with Sections 476.445 to 476.690, RSMo. Responsibility for the operation and administration of the Judicial Plan is vested in the MOSERS Board. Due to the nature of MOSERS' reliance on funding from the state of Missouri and the overall control of the plan document by the legislative and executive branches of state government, the Judicial Plan is considered a component unit of the state of Missouri financial reporting entity and is included in the state's financial reports as a pension trust fund. Judges and commissioners of the supreme court or the court of appeals, judges of the circuit court, probate court, magistrate court, court of common pleas, court of criminal corrections, justices of the peace, or commissioners or deputy commissioners of the circuit court appointed after February 29, 1972, commissioners of the juvenile division of the circuit court appointed pursuant to Section 11.023, RSMo, commissioners of the drug court pursuant to Section 478.466, RSMo, or commissioners of the family court are eligible for membership in the Judicial Plan. The Judicial Plan provides retirement, survivor, and disability benefits. Members are immediately vested.

Notes to Schedules

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information related to MOSERS is available as described in Note 6.

Participating employers in the MSEP, for which amounts are allocated in the schedules include the state of Missouri, component units of the state of Missouri, and related organizations excluded from the state of Missouri's reporting entity. The state of Missouri is the only participating employer in the Judicial Plan.

The employer contribution rate for pension plans for the year ended June 30, 2024 were as follows:

Exhibit 1: Employer Contribution Rate for Pension Plans

	MSEP	Judicial Plan
Rate as percentage of payroll	27.26 %	59.83 %

Note 2 – Condensed Summary of Significant Accounting Policies

MOSERS employers are required to report pension information in their financial statements in accordance with Governmental Accounting Standards. The *Schedules of Employer Allocations* and *Schedules of Pension Amounts by Employer* provide employers with the required information for financial reporting under that standard.

The underlying financial information used to prepare the pension allocation schedules is based on MOSERS' financial statements and its accounting and payroll reporting systems. The financial statements of both MSEP and the Judicial Plan were prepared using the accrual basis of accounting and in accordance with U.S. generally accepted accounting principles.

Member and employer contributions are recognized when due, pursuant to formal commitments and statutory requirements. Benefits and refunds of employee contributions are recognized when due and payable in accordance with the statutes governing MOSERS. Expenses are recognized when the liability is incurred, regardless of when payment is made. Investments are reported at fair value on a trade date basis.

Total employer contributions due for the fiscal year are generally used as the basis for determining each employer's proportionate share of the collective pension amounts reported on the schedules. However, the System is excluded from all allocations. As a result, contributions totaling \$2,533,580 related to the System's members were excluded from the *Schedules of Employer Allocations*.

The net pension liability is based on each plan's fiduciary net position as reported in its financial statements and the estimated total pension liability estimated by MOSERS' actuary as of each fiscal year-end. It is allocated based on each employer's proportionate share of contributions.

Notes to Schedules

Deferred inflows and outflows, except for the change in proportion, are allocated based on each employer's proportionate share of contributions for the fiscal year. The difference between expected and actual investment earnings on pension plan investments is amortized as a component of pension expense over five years on a straight-line basis while the differences between expected and actual experience and changes in assumptions are amortized as a component of pension expense over the expected average remaining service lifetime (EARSL) of all participants. Deferred inflows and outflows related to the change in proportion used for allocation purposes from one fiscal year to the next are estimated by reallocating beginning balances using the ending allocation percentage and amortizing the difference over the EARSL as a component of pension expense. The remaining unamortized deferred inflows and outflows are reported in the *Schedule of Pension Amounts by Employer*. Each year's layer of deferred inflows and outflows retains its original calculated EARSL.

Pension expense is based on the service cost earned by participants during the fiscal year, interest on the total pension liability, certain changes in plan fiduciary net position, and the current year amortization of deferred inflows and outflows. It is allocated based on each employer's proportionate share of collective plan amounts and its specific amortization of change in proportion deferred item.

The preparation of these schedules in conformity with U.S. generally accepted accounting principles requires management to make significant estimates and assumptions that affect the reported amounts during the reporting period. Actual results could differ from those estimates.

Note 3 – Actuarial Assumptions, Methods and Net Pension Liability

Net Pension Liability of Employers

The components of the net pension liability as of June 30, 2024 were as follows:

Exhibit 2: Net Pension Liability of Employers

	MSEP	Judicial Plan
Total pension liability	\$ 16,915,028,387	\$ 675,035,481
MOSERS' fiduciary net position	<u>8,798,645,184</u>	<u>196,573,541</u>
Employers' net pension liability	<u>\$ 8,116,383,203</u>	<u>\$ 478,461,940</u>
Plan net position as a percentage of the total pension liability	52.02 %	29.12 %
Employers' covered payroll *	\$ 2,454,097,232	\$ 68,110,664
Employers' net pension liability as a percentage of covered payroll *	330.73 %	702.48 %

*Amounts reported as *Covered payroll*, and *Net pension liability as a percentage of covered payroll* in these GASB 68 Employer Schedules differ from amounts reported in MOSERS' annual actuarial valuation and *Annual Comprehensive Financial Report (ACFR)*. MOSERS internal payroll costs are included in the covered payroll figures reported in the annual actuarial valuation and *ACFR*, but are excluded from amounts reported in these GASB 68 schedules because net pension liability must be allocated among the participating employers, and not the System for the purposes of GASB Statement 68. In addition, the covered payroll figures reported in annual actuarial valuation and the *ACFR* include estimates for June payroll amounts to facilitate a timely completion of those reports, but amounts reported in these *GASB 68 Employer Schedules* are based on actual amounts.

An actuarial valuation of an ongoing plan involves estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The *Schedule of Changes in Employers' Net Pension Liability*, which can be found in MOSERS *ACFR*, presents multi-year trend information about whether the plan fiduciary net positions are increasing or decreasing over time relative to the total pension liability. The total pension liability, as of June 30, 2024, is \$16,915,028,387 for MSEP and \$675,035,481 for the Judicial Plan based on an actuarial valuation performed as of June 30, 2024, and a measurement date of June 30, 2024, using generally accepted actuarial procedures.

Notes to Schedules

Actuarial Assumptions Used to Determine Net Pension Liability

An actuarial experience study covering the five-year period ended June 30, 2020, was performed in 2021.

Exhibit 3: Summary of Actuarial Assumptions for the MSEP and the Judicial Plan Used to Determine Net Pension Liability

	Assumption
Valuation date	June 30, 2024
Actuarial cost method	Entry age normal
Asset valuation method	Fair value
Investment rate of return, net of investment expense	6.95 %
Projected salary increases **	2.75 - 10.00% (MSEP) 3.00% (Judicial Plan)
Rate of payroll growth	2.25 %
COLAs *	4% or 1.80%
Price inflation	2.25 %

* 4.00% compounded annually, when a minimum COLA of 4.00% is in effect. 1.80% compounded annually, when no minimum COLA is in effect (80% of price inflation).

** General Assembly members are assumed to get salary increases of 2.5%.

Mortality Rates - MSEP

Pre-retirement mortality rates were based on the Pub-2010 General Members Below Median Employee mortality table, set back two years for males and set forward one year for females. Mortality was projected generationally from 2010 to 2020 using Scale MP-2020 and 75% of Scale MP-2020 for years after 2020.

Post-retirement mortality rates for retirees were based on the Pub-2010 General Members Below Median Healthy Retiree mortality table, scaled by 104%, set back two years for males and set forward one year for females. Mortality projected generationally from 2010 to 2020 using Scale MP-2020 and 75% of Scale MP-2020 for years after 2020.

Post-retirement mortality rates for beneficiaries were based on the Pub-2010 General Members Below Median Contingent Survivor mortality table, set back two years for males and set forward one year for females. Mortality was projected generationally from 2010 to 2020 using Scale MP-2020 and 75% of Scale MP-2020 for years after 2020.

Disabled mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table, without mortality projection.

Notes to Schedules

Mortality Rates - Judicial Plan

Pre-retirement mortality rates were based on the Pub-2010 General Members Median Employee mortality table. Mortality was projected generationally from 2010 to 2020 using Scale MP-2020 and 75% of Scale MP-2020 for years after 2020.

Post-retirement mortality rates for retirees were based on the Pub-2010 General Members Median Healthy Retiree mortality table. Mortality was projected generationally from 2010 to 2020 using Scale MP-2020 and 75% of Scale MP-2020 for years after 2020.

Post-retirement mortality rates for beneficiaries were based on the Pub-2010 General Members Median Contingent Survivor mortality table. Mortality was projected generationally from 2010 to 2020 using Scale MP-2020 and 75% of Scale MP-2020 for years after 2020.

Discount Rate

The discount rate used to measure the total pension liability was 6.95%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made using the actuarially determined rates. Based on those assumptions, MOSERS' fiduciary net position was projected to be available to make all the projected future benefit payments of the current plan members. As a result, the long-term expected rate of return on pension plan investments, net of investment expense, of 6.95% was applied to all periods of projected benefit payments to determine the total pension liability.

The table below presents the net pension liability of the plans, as of June 30, 2024, calculated using the discount rate of 6.95%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1% lower (5.95%) or 1% higher (7.95%) than the current rate.

Exhibit 4: Discount Rate Sensitivity

		1% Decrease		Current Discount Rate		1% Increase
Employers' Net Pension Liability		5.95 %		6.95 %		7.95 %
MSEP	\$	10,076,615,263	\$	8,116,383,203	\$	6,479,063,398
Judicial Plan	\$	543,691,214	\$	478,461,940	\$	422,445,589

The current funding policy, if actuarial assumptions are met, results in the projected plan fiduciary net position being sufficient to pay benefits for all future years. Therefore, the current 6.95% discount rate is considered adequate, and the use of the municipal bond rate calculation is not necessary.

Notes to Schedules

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate rates of expected future rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage and by adjusting for expected inflation, volatility and correlations. Best estimates of the real rates of return expected are summarized by asset class in the following tables.

Exhibit 5: Long-Term Expected Rate of Return

Asset Class	Policy Allocation	Long-Term Expected Nominal Return*	Long-Term Expected Real Return	Weighted Average Long-Term Expected Nominal Return
Global public equities	30.0 %	7.7 %	5.8 %	2.3 %
Global private equities	15.0	9.3	7.4	1.4
Long treasuries	25.0	3.5	1.6	0.9
Core bonds	10.0	3.1	1.2	0.3
Commodities	5.0	5.5	3.6	0.3
TIPS	25.0	2.7	0.8	0.7
Private real assets	5.0	7.1	5.2	0.3
Public real assets	5.0	7.7	5.8	0.4
Hedge funds	5.0	4.8	2.9	0.2
Alternative beta	10.0	5.3	3.4	0.5
Private credit	5.0	9.5	7.6	0.5
Cash and cash equivalents**	(40.0)	0.0	0.0	0.0
	<u>100.0 %</u>			
			Correlation/Volatility Adjustment	(0.6)
			Long-Term Expected Net Nominal Return	7.2
			Less : Investment Inflation Assumption	(1.9)
			Long-Term Expected Geometric Net Real Return	<u>5.3 %</u>

* Long-term expected arithmetic returns of the asset classes at the time of the asset allocation study for each portfolio.

** Cash and cash equivalents policy allocation amounts are negative due to use of leverage.

Notes to Schedules

Note 4 – Basis for Allocation

The employers' proportionate share, reported in the *Schedules of Employer Allocations*, is calculated using accrued retirement contributions as of June 30, 2024. Adjustments have been made for employer contributions received that do not reflect an employer's projected long-term contribution effort. As a result, the total employer contribution amounts reported in the *Schedule of Employer Allocations* do not agree with the total employer contribution amounts reported on the *Combined Statements of Changes in Fiduciary Net Position* in MOSERS' June 30, 2024 ACFR.

Exhibit 6: Reconciliation of Employer Contributions

	MSEP	Judicial Plan
Employer Contributions reported in MOSERS' <i>Statement of Changes of Fiduciary Net Position</i> for the Year ended June 30, 2024	\$ 671,523,865	\$ 40,748,235
Adjustments for contributions related to past and future periods	(7,025)	2,637
Deduct MOSERS contributions not included in the allocation	(2,533,580)	0
Total employer contributions used as the basis for allocating employer's proportionate share of collective pension amounts.	<u>\$ 668,983,260</u>	<u>\$ 40,750,872</u>

The difference in contributions, as reported on the June 30, 2024 *Schedule of Employer Allocations*, and the total employer contributions as reported on the *Combined Statements of Changes in Fiduciary Net Position* in MOSERS' June 30, 2024 ACFR, is a difference between employer contributions and proportionate share of contributions, which is allocated proportionately to employers on the *Schedules of Pension Amounts by Employer*, based on the calculated allocation percentage. That amount is deferred and recognized over the average of the expected remaining service lives of active and inactive members.

Notes to Schedules

Note 5 – Changes in Benefit Terms and Assumptions

There were no changes in benefit terms for the year ended June 30, 2024.

There were no changes in assumptions for the year ended June 30, 2024.

Note 6 – Additional Financial and Actuarial Information

Additional financial and actuarial information supporting the preparation of the *Schedules of Employer Allocations* and *Schedules of Pension Amounts by Employer* is included in the Systems' ACFR for the year ended June 30, 2024.

The ACFR can be obtained at www.mosers.org.

Missouri Wine and Grape Board	291,295
Northwest Missouri State University	36,615,841
Southeast Missouri State University	42,115,558
State Technical College of Missouri	14,952,543
Truman State University	27,101,985
University of Central Missouri	55,832,121
Total	<u>\$ 2,454,097,232</u>

*Amounts reported as *Covered payroll*, and *Net pension liability as a percentage of covered payroll* in these *GASB 68 Employer Schedules* differ from amounts reported in MOSERS' annual actuarial valuation and *Annual Comprehensive Financial Report (ACFR)*. MOSERS internal payroll costs are included in the covered payroll figures reported in the annual actuarial valuation and *ACFR*, but are excluded from amounts reported in these *GASB 68 schedules* because net pension liability must be allocated among the participating employers, and not the System for the purposes of *GASB Statement 68*. In addition, the covered payroll figures reported in annual actuarial valuation and the *ACFR* include estimates for June payroll amounts to facilitate a timely completion of those reports, but amounts reported in these *GASB 68 Employer Schedules* are based on actual amounts.

Supplementary Information

Schedule of Employer Covered Payroll - Judicial Plan

For the year ended June 30, 2024 (Unaudited)

	Employer Covered Payroll *
State of Missouri	\$ 68,110,664
Total	<u>\$ 68,110,664</u>

*Amounts reported as *Covered payroll*, and *Net pension liability as a percentage of covered payroll* in these *GASB 68 Employer Schedules* differ from amounts reported in MOSERS' annual actuarial valuation and *Annual Comprehensive Financial Report (ACFR)*. MOSERS internal payroll costs are included in the covered payroll figures reported in the annual actuarial valuation and *ACFR*, but are excluded from amounts reported in these *GASB 68 schedules* because net pension liability must be allocated among the participating employers, and not the System for the purposes of GASB Statement 68. Notes to Supplementary Information

Note 1. Recognition Period

The recognition period of the changes in proportion and differences between employer contributions and proportionate share of contributions, as well as the difference between expected and actual experience, and changes in assumptions are recognized over the average expected remaining service lives of active and inactive members. The difference between projected and actual investment earnings is recognized over 5 years. Plan amendments are recognized immediately.

The average expected remaining services lives of active and inactive members were as follows:

Exhibit 7: Average Expected Remaining Service Lives

Average Expected Remaining Service Lives as of Fiscal Year end June 30,	MSEP	Judicial Plan
2024	2.430	4.449
2023	2.466	4.265
2022	2.639	4.300
2021	2.953	4.140
2020	3.084	4.168
