An Update from the Executive Director

Recent Board Meeting Updates from Ronda Stegmann

The main objective of Board meetings is to ensure the long-term sustainability of promised benefits. Below are the highlights from our most recent meeting.

September 23, 2021

The top priority for this quarterly meeting of the Board was to certify the employer contribution rates for FY23.

Following an in-depth presentation from our independent external actuary, the MOSERS Board certified the MSEP employer contribution rate for FY23 at 26.33% of payroll beginning July 1, 2022. The employer contribution rate is the percent of pay that a MOSERS-covered employer contributes every pay period to properly fund the retirement plan. The funded ratio of the plan was calculated at 59%. You may ask, "Why is the funded ratio 59%?". It is important to remember in 2018, after significant analysis and

deliberation, the Board adopted a funding policy that we knew would increase the employer contribution rate and decrease the plan's funded ratio. This funding policy is designed to ensure the long-term sustainability of MOSERS. Our actuarial projections indicate positive movement for both the employer contribution rate and the funded ratio of the plan, going forward.

Next, our Board investment consultant and staff provided the Board with an update of recent investment performance. Our investment return for FY21 was 26.4%, resulting in \$2.1 billion in investment earnings added to the trust fund. This is the highest one-year investment return since 1986. This robust return increased the assets of the MOSERS trust fund to an unprecedented level of \$9.7 billion, as of June 30, 2021.

The Board also approved the 2022 Board meeting schedule, adopted modifications to the Board's Governance Manual, and received updates on staff initiatives such as the multi-year pension administration system project and 2022 legislative proposals.

Upcoming Board Election

Summer will be here before you know it and so will the 2022 MOSERS Board Election. In August, it will be time to elect two active members to the MOSERS Board of Trustees. We have already begun work to ensure a smooth and fair election process. In order to participate and vote in the upcoming election, we must have your mailing address and email address on file so that we can contact you with election information! You can update it by logging in to [myMOSERS](#). Select **Personal Information**, then click **Update Personal Information**.

Summary Annual Report to Members

Fiscal Year Ended June 30, 2021

MOSERS

Message from the Executive Director

Ronda Stegmann
Executive Director

It is my pleasure to present MOSERS' *Summary Annual Report to Members*, which provides a brief overview of our financial condition as of June 30, 2021. During fiscal year 2021, the Board and staff worked extensively and collaboratively on solutions to ensure the fiscal sustainability of MOSERS for current and future members. I would like to thank our trustees for their dedication and commitment.

The MOSERS investment portfolio generated a time-weighted return of 26.4%, net of fees, for fiscal year 2021. The total fund returned 1.2% more than would have been expected through passive investing in the benchmarks.

Staff completed the transition from the "Old" portfolio allocation to the "New" portfolio allocation at the end of February 2021 in 26 months, 10 months ahead of schedule. The Old portfolio represented approximately 42% of the total fund at the beginning of the fiscal year. We utilized six one-month advancements of the transition, as permitted by policy, in order to complete the transition in February.

To allow for more predictable and stable contributions rates, MOSERS' funding is based upon the actuarial value of assets, which smooths asset gains and losses over a five-year period. As of June 30, 2021, the MSEF was 59.0% pre-funded and the Judicial Plan was 31.1% pre-funded, based on MOSERS' funding valuation.

The General Assembly authorized and the Governor approved the appropriation of \$505 million to MOSERS for fiscal year 2022, which will fully fund the Board-certified employer contribution rate.

The theme of this year's *Summary Annual Report to Members* is "Long Story Short...Pensions Have Purpose". This message highlights important aspects of the System. We know public pensions, like MOSERS, are long-term entities that invest over long time horizons and span many generations of membership. Some of our retired membership are highlighted in this report through the sharing of their "six word stories". These "stories" describe their thoughts on being a MOSERS retiree or retirement in general. This theme also speaks to MOSERS mission statement to "advance the financial security of its members" and the hallmark of all we do. We know our members rely on their benefits now and far into the future. The MOSERS staff will continue to "roll up our sleeves" and work hard for our members, the Board, and all our stakeholders as we move into fiscal year 2022. It is our honor to work for this great state and its citizens.

Respectfully submitted,

Ronda Stegmann
Executive Director

Message From the Board Chairwoman

Dear Members:

On behalf of the MOSERS Board of Trustees, I am pleased to present the MOSERS *Annual Comprehensive Financial Report* for the fiscal year ended June 30, 2021. This report is one of MOSERS' finest examples of collaboration and an organization-wide team effort.

During the year ended June 30, 2021, the Board of Trustees continued its work on behalf of the MOSERS membership. While the global pandemic required MOSERS to modify the way we conduct business, our Board and staff members continued to work on key initiatives over the last fiscal year, some of which included:

- comprehensive review and adoption of MOSERS' Board Rules;
- completing the transition of the Board-adopted investment portfolio while generating a return of 26.4%, net of fees; and
- maintaining robust communication with our membership during the ever-changing landscape of fiscal year 2021.

MOSERS was very fortunate to have Board continuity, with minimal turnover, during fiscal year 2021. The MOSERS Board received two new Senate-appointed members when both Senate-appointed members of the Board left the legislature due to term limits. I would like to thank Senator Wallingford and Senator Walsh for their dedicated service as a MOSERS Board Trustee. We welcomed Senator Rizzo and Senator Wieland to the MOSERS Board in 2021. Their participation and perspectives have already added to the Board's robust discussions and decision-making process.

During my tenure as Board chairwoman, I have witnessed the substantial amount of time and service our trustees have dedicated to MOSERS. I am proud to lead this fine group of fiduciaries in acting in the best interest of our members. As a state employee elected to the MOSERS Board by our active membership, I understand the value of a future MOSERS pension benefit and the role this benefit has in the employers' recruitment and retention efforts. Total compensation is more than just the dollars received in a paycheck. The ongoing monthly contributions from the MOSERS-covered employers represent a significant financial commitment to our members, their families, their communities, and ultimately the citizens we serve. As we look to fiscal year 2022, the Board in conjunction with staff, will continue to further our core mission of advancing the financial security of our members.

I wish to express my appreciation to you, our members, for your commitment and service to this great state and its citizens. I am honored to serve as one of your representatives on the MOSERS Board.

If you ever have any questions, please contact us at MOSERS, P.O. Box 209, Jefferson City, MO 65102, call us at (800) 827-1063, or visit our website at www.mosers.org.

Sincerely,

Crystal Wessing, Chairwoman
Board of Trustees

- MOSERS provides a modest benefit to those who served the public during their working years to help meet their basic needs.
- Our neighbors, friends, and family spend their pension benefits in our communities. Nearly 90% of retirees and their dependents remain in Missouri, spending retirement dollars on housing, goods, and services. Each \$1 paid in benefits has \$1.50 in economic impact.*
- Retirees had more than \$17.2 million in state taxes and \$69.7 million in federal taxes withheld from their benefit payments in fiscal year 2021.

Investments

Investment Growth

It takes a long time to grow defined benefit pension assets. MOSERS' first investment transaction occurred in 1957, when a single outside advisor placed \$100,000 in a 90-day Treasury Bill on behalf of participants. It took nearly 30 years for the System's investments to reach the \$1 billion mark. As reflected in the graph (top right), the investment portfolio, as of June 30, 2021, was \$9.7 billion.

Fund Allocation & Risk

Market volatility is what investors traditionally consider to be the risk of investing. To protect against this risk, our investment portfolio is diversified across numerous asset classes and investment strategies.

The percentage of the total investment portfolio by specific asset class as of June 30, 2021, is reflected in the graphs (middle right). The asset allocation is built on the belief that diversification is critical in achieving consistent, long-term risk-adjusted investment returns.

Investment Performance vs. Benchmark Return

The policy benchmark provides a point of comparison when assessing the investment performance of the total fund. By comparing the policy benchmark return to the total fund return, we can determine how the MOSERS investment team performed on a comparative basis over a given time period. Value is added when the total fund return exceeds the policy benchmark. The policy benchmark also provides guidance for staff as well as other stakeholders of the fund through establishment of concrete investment goals. Additionally, the policy benchmark establishes the Board's long-term view regarding investments, which puts into perspective any reaction, or over-reaction, to short-term market conditions. Returns for the total fund verses these benchmarks are displayed in the corresponding graph (lower right).

MSEP Retirement Funding

Funded Status

In order to help ensure your benefits are properly funded, MOSERS contracts with an outside actuarial firm to perform an annual actuarial valuation which determines the funded status of the plans at year end and the contribution rates needed to adequately fund the System in the future. The percentages shown in the bar chart indicate the extent to which the System was funded as of a given year end.

Employers contribute the actuarially determined contribution that, when combined with current assets and expected future investment returns, will be sufficient to meet the current and future assumed financial obligations of the System.

Through a history of reasonable benefit levels, mandatory participation, actuarially determined employer contributions, and professionally managed investments, MOSERS benefits continue to be secure.

Pension reform in 2010, known as MSEP 2011, works to stabilize plan funding, retains the defined benefit (DB) structure, and provides sustainability for future generations. As of June 30, 2021, a total of 52.2% of active employees are in the MSEP 2011.

Plan Revenue

MOSERS is an advance-funded retirement system. Unlike "pay-as-you-go" plans, employer and employee contributions plus investment earnings are accumulated and professionally managed during employees' careers, and paid out over their retirement years. Over the long-term, the largest contributor to accumulated plan assets is investment earnings, which accounts for 61% of the assets in the MOSERS Trust Fund.

A few key components used to calculate the employer contribution rate and the plan's funded ratio are the assumed rate of return on investments and the adoption of mortality tables relative to members' life expectancy. Both of these inputs are set using realistic expectations in order to appropriately fund the plan over time.

During the last experience study, the Board approved updated mortality tables in recognition of longer life expectancy. This action, along with other recommendations adopted from the experience study, increased the fiscal year 2023 employer contribution rate by approximately 1.9% of payroll.

Additionally, the Board has systematically reduced the MOSERS investment return assumption from 7.5% in 2017 to the current assumption of 6.95% in 2020. This movement was in recognition of lower capital market expectations. This calculated reduction in the investment return assumption has resulted in an increased employer contribution rate and lower funded ratio for the MSEP.

The prudent actions mentioned above, while increasing the employer contribution rate and decreasing in the plan's funded ratio in the near-term, will work to ensure the long-term sustainability of MOSERS.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) has given an Award for Outstanding Achievement in Popular Annual Financial Reporting to MOSERS for its Popular Annual Financial Report for fiscal year ended June 30, 2020. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports.

In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government unit must publish a Popular Annual Financial Report, whose contents conform to program standards of creativity, presentation, understandability, and reader appeal.

An Award for Outstanding Achievement in Popular Annual Financial Reporting is valid for a period of one year only. MOSERS has received this award for 26 consecutive years (fiscal years ended 1995 through 2020). We believe our current report continues conform to the Popular Financial Reporting requirements, and we are submitting it to the GFOA to determine its eligibility for another Award.
